WHY STANDING SEAM?

Standing seam metal roofing embodies the essence of modern luxury—uniting durability with elevated, contemporary style. It's clean, refined lines and advanced concealed fastener system create a smooth, seamless appearance that delivers both a sophisticated look and exceptional defense against the elements.

Built to withstand high winds, heavy snowfall, and the challenges of every season, this premium roofing system offers a lifetime of dependable performance with minimal maintenance. The result is timeless elegance and long lasting assurance in the strength of your investment.

LIFETIME PERFORMANCE

Metal roofing lasts 3–4× longer than conventional asphalt shingles.

TAILORED ELEGANCE

Our systems come in a broad range of standard and matte colors, backed by a 40-year limited warranty.

DURABLE & WEATHER-RESISTANT

Standing seam roofs are engineered to withstand high winds and severe weather, providing long-lasting protection for your home or building.

ENVIRONMENTALLY FRIENDLY

Committed to sustainability through 100% recyclable steel and recycled materials.

MULTIPLE PROFILES AVAILABLE

OVM Inc. proudly offers three variations of standing seam panels, ensuring the perfect fit for any project.

INFORMATION & TECHNICAL SUPPORT

Whether you're a seasoned installer or a DIYer, OVM Inc. provides guidance every step of the way.

LOCALLY MANUFACTURED

Our products are made locally using high-quality, domestically sourced materials.
